This is a reminder that *all* submissions must be in the *Missouri Miner's* drop box by 4:30 p.m. on the Thursday before the paper comes out. The drop box is located on the first floor of the Rolla Bldg., east side.

Brown calls home from CE Building? GM gives 5 year endowment

By Cathy Corley and Denny Henson
Staff Writers

Of the many false alarms in the search for John Brown, surely none have hit so close to home as last Thursday's disturbance at the Civil Engineering Building.

At approximately 2:30 p.m. a call placed to Brown's family was traced to a pay phone at UMR's Butler Civil Engineering Hall. First on the scene were UMR police officers Tom Zdradny and Jim Arl, who were joined shortly by search team members from the manhunt area and by Rolla police officers. A helicopter was also called in

as all exits from the building were guarded by armed men.

The building was searched for a man described as wearing gray slacks with a white shirt and tie who was thought to have used the pay phone at the time in question. Before the entire building had been examined the man was identified as a member of the news media and the search was called off.

As the building was searched an effort was made not to disrupt the normal routine. Students were not prevented from entering or leaving the building; and according to Ed Winkler,

a senior civil engineering student, at least one CE professor didn't realize the search was taking place. Winkler added that the excitement attracted a "healthy crowd of spectators."

In a related story, last Thursday evening manhunt team members were searching an area near fraternity row when a group of students came out to watch. The number of people present fouled the scent and confused the dogs attempting to track Brown. Thanks go to students Dave Trower and Ed Montgomery who were instrumental in clearing the area of the hindering observers.

By Denny Henson

Staff Writer The details of General Motors Foundation's third grant to UMR in 10 years, a 5 year \$300,000 endowment, were announced last Monday by GM executive and UMR alumnus Lloyd Reuss. This is the third such grant to UMR by GM, bringing the total donations by the automotive conglomerate to \$700,000. The grants are part of GM's Key Executive Program, a means to help support universities from which relatively large numbers of technical students are recruited.

In the program, teams of GM staff members are assigned to specific universities and consist largely of alumni of the school concerned. According to Reuss, the program has developed a "... mutually advantageous relationship between industry and the academic community ... (and) ... provides information useful in future curriculum planning with respect to the technical requirements of business and

industry."

The grant will be used for undergraduate scholarships and specific programs such as the Library Fund and Computer Center, with most of the money going to the schools of Engineering and Mines & Metallurgy.

Lloyd Reuss is a member of UMR's class of 1957 with a BSME, and has also completed the Senior Executive Course at the Massachusetts Institute of Technology. Mr. Reuss, in addition to participating in GM's Key Executive Program, is the executive vice president of GM's North American Passenger Car Group; is a trustee of Lawrence Institute of Technology, Alma College, and the Louisville Presbyterian Theological Seminary; and is on the Board of Directors of Electronic Data Systems and GM Hughes Electronics Corporation. As one of many institutions and corporations benefitting from Mr. Reuss' considerable skills, we greatly appreciate his efforts on our behalf.

Stuco sponsored blood drive needs your help

Submitted by Student Council Blood Drive Committee

The UMR Blood Drive, sponsored by the Student Council and supported by the Rolla area Pizza Hut, End of the Rainbow and KMNR Radio, is scheduled for Wednesday, April 22 and Thursday, April 23 from 10 a.m. to 4 p.m. at Centennial Hall, University Center-East. In trying to make this the best blood drive yet, we are asking you and your organization for full participation.

As with the last blood drive, each person who donates will receive a free "Large for Medium Charge" coupon, good for one large pizza at a medium size price at your Rolla area Pizza Hut. KMNR will again provide music during the two-day blood drive for listening enjoyment.

Competition also continues this semester for the \$150 gift certificate offered by the home and car audio specialists at End of the Rainbow. This past fall brought new changes from

years past as Pi Kappa Phi just barely edged out Sigma Nu and AEPi for top percentage honors. January's blood drive shows Sigma Nu at the head of the field with Sig Pi, Pi Kappa Phi, Phi Kappa Theta, and Zeta Tau Alpha closing in quickly.

Remember, the highest percentage of donors versus house members, for each semester, will receive a \$150 gift certificate and the UMR Blood Drive traveling trophy. Thank you for your participation.

Saga provides free meal to manhunt volunteers

Source: OPI

Saga Food Service, the company which provides food service for the university, provided a free meal for law enforcement personnel involved in the search for John D. Brown. Serving was from 4-8 p.m. Wednesday, April 15, in

the University Center-East cafeteria.

Mike De Vries, Saga Food Service director, said the company wanted to thank those involved in the search. "We appreciate what these lawmen are doing for the community and wanted to express our gratitude for their selfless endeavor," he said.

The meal was co-sponsored by the Rolla Kiwanis Club, the Knights of Columbus, the Rolla Elk Lodge, the Rolla Jaycees and UMR Auxiliary Services.

The Saga Food Service is contracted through UMR Auxiliary Services—no state funds are involved.

Big Brothers/Big Sisters bowl to be held

Beth Wholf, RHA, and Nena Abdul Wakeel, Delta Sigma Theta, are promoting their teams' determination to win this year's Big Brother/Big Sister traveling trophy that will be awarded to the team that raises the most money during the annual Big Brothers/Big Sisters Bowl for Kids Sake Super Strikes fundraiser, Sunday, April 26, at Colonial Lanes. Miller to speak on career

Source: OPI

Dr. Dan Miller, former assistant secretary of the U.S. Department of the Interior, will talk on "Professional Careers in Industry, Academia, State and Federal Government and Private Business" at UMR. The talk will begin at 3:30 p.m. Wednesday, April 22, in Room 305 Norwood Hall.

Miller has had careers in industry, education and government. Presently, he is a geological consultant for oil and gas exploration in Boise, Idaho. He worked for 11 years in the development of oil along the Texas gulf coast, and in the Rocky Mountains and Canada as a senior exploration geologist.

In addition, Miller has served as professor and chairman of the geology department at Southern Illinois University from 1963-69 and as state geologist of Wyoming and director of the Wyoming Geological Survey from 1969-81. He served as U.S. assistant secretary for energy and minerals from 1981-83.

Miller is the author or editor of more than 35 scientific, technical and professional publications. He holds B.S. and M.S. degrees from UMR and a Ph.D. degree from the University of Texas.

The talk is free and the public is invited to attend.

Belcher receives grant for research

Submitted by Department of Engineering Management

Mr. M. Clay Belcher, a doctoral student in engineering management, has been awarded the Richard Kelly Grant by the Illuminating Engineering Society for his research into the effects of light on decision making. The award is intended to support "those young

persons who preserve and carry forth Richard Kelly's ideals, enthusiasm and reverence for light." Mr. Belcher, a Curators' Scholarship student, received the grant amount of \$1,500 by the Richard Kelly Grant Committee in New York City for his "utilization of light in its most challenging, innovative and resourceful way."

Al Cummings named Shell Scholar

Source: OPI

Al Cummings Jr., a UMR freshman in electrical engineering from University City, has been named a Shell Scholar at UMR.

As a Shell Scholar, Cummings will receive scholarship assistance through the Shell Incentive Funds program.

The Incentive Funds, which are provided by the Shell Companies Foundation Incorporated, "are intended to encourage outstanding students belonging to ethnic minorities in the United States to pursue a course of study in business or technical fields leading to the baccalaureate degree."

At UMR, Cummings is a member of the Chancellor's Leadership Class, the National Society of Black Engineers and Alpha Phi Alpha fraternity. He also is a Minority Engineering Program Scholar.

He is a graduate of Lutheran North High School, where he was a member of the National Honor Society. He also attended Boy's State of Missouri, was a commended student in the National Achievement Program and was a member of the National Honor Roll.

Cummings is the son of Wava Cummings, 1132 Midiron Ave., University City.

calendar of events

Tuesday

Helix meeting at 7 p.m. Tuesday, April 21. Room 111 Chemical Engineering.

Beta Chi Sigma will be having a meeting on Tuesday, April 21 at 7 p.m. in ME 118. Pledges are to attend this meeting.

Wednesday

There will be an ASCE meeting at 7 p.m. in CE 114.

MSM Spelunkers Club will have their pictures taken. Election of officers for next semester will be held. Meeting in Room 305 Norwood at 6 p.m.

Miner baseball, Washington University, 1 p.m., UMR baseball field.

Thursday

American Society for Engineering Management and the Institute for Industrial Engineers will hold their last meeting Thursday, in G-3, Monsanto Hall, Chemical Engineering Building at 6:30. Elections will be held during this meeting.

University Theatre-UMR, Baby With the Bathwater, 7:30 p.m., Cedar Street Center. Tickets are \$1 each and may be purchased from 9 a.m.-noon and 1-4 p.m. weekdays, Room 236, Humanities-Social Sciences Building. Tickets also will be available at the door one hour in advance of the performance.

UMR Film Series, My Beautiful Laundrette, 7:30 p.m., Miles Auditorium, Mechanical Engineering Building. Season ticket or \$3 at the door.

Friday

UMR Golf, Best Ball Tourney, 11 a.m., UMR Golf Course.

Saturday

UMR Golf, Best Ball Tourney, 11 a.m., UMR Golf Course.

University Theatre-UMR, Baby With the Bathwater, 7:30 p.m., Cedar Street Center. Tickets are \$2 for students and retirees, \$3 for all others and may be purchased from 9 a.m.-noon and 1-4 p.m. weekdays, Room 236, Humanities-Social Sciences Building. Tickets also will be available at the door one hour in advance of the performance.

UMR Spring Open House, registration 8 a.m.-noon in the Miner Lounge, University Center-East. Guided tours of the campus 9 a.m.-noon, University Center-East. Academic departments open house 9 a.m.-noon.

Next Tuesday

UMR Jazz Ensemble, 7:30 p.m., Cedar Street Center. Free.

Sunday

University Choir Concert, 2:30 p.m., Centennial Hall, University Center-East. Free.

Noday

A program of six-week yoga classes will be held. The classes are free and open to the public, and will be conducted by Shamsheer Prakash, professor in civil engineering, UMR. Special emphasis will be on prevention and curative value of yoga for sinus problems, headaches and backaches. Preregistration is required at 364-5572. Classes start 6:30 p.m. April 20; at 817 Pine Street.

Miner of the Month applications are due by April 28. They may be turned in to the candy counter in the University Center-East or the Blue Key mailbox in the Student Activities office.

Kappa Mu Epsilon math honor society is conducting help sessions for students in math classes up to and including Calc II. These help sessions are held every Tuesday and Thursday from 7-8 p.m. in M-CS 203.

Attention May graduates. Commencement announcements are now available in the Registrar's Office for all graduating students. These announcements are provided by the University at no cost to students who will be graduating on May 17, 1987.

Preregistration for the Summer and/or Fall semester will be April 20 through April 24. Students should obtain their preregistration materials and schedule of classes from the Registrar's Office starting April 16. Detailed information regarding preregistration will be found in the front section of the Fall schedule of classes.

Finals Schedule Announced

The final examination period will begin Monday, May 11, 1987, at 7:30 a.m. and end at 5:30 p.m., Saturday, May 16, 1987. Common finals are scheduled for those courses listed in Section II below. Room assignments for common finals will be announced by the instructors.

The courses not covered in Sections I, II, and III are to be arranged by the instructor in cooperation with the students in that course.

I. **Evening Course Finals** are scheduled for the evening session during final week.

II. **Common Finals** include ALL SECTIONS.

C Sci 73, 228	Thursday	7:30-9:30
C Sci 153, 260	Saturday	1:00-3:00
EE 61, 63	Wednesday	7:30-9:30
EE 281	Monday	7:30-9:30
EM 50, 150	Tuesday	7:30-9:30
EM 110	Monday	1:00-3:00
Hist 112, 175, 176	Tuesday	7:30-9:30
Math/Stat 2, 4, 8, 215	Monday	1:00-3:00
Math/Stat 6	Wednesday	7:30-9:30
Math/Stat 21, 22	Monday	7:30-9:30
Math/Stat 204, 229	Friday	1:00-3:00
Phys 23, 24, 107	Wednesday	1:00-3:00

III. **Regular Finals**

First Weekly Class Meeting Time	Final Exam Time
Monday, 7:30	Wednesday 3:30-5:30
Monday, 8:30	Thursday 10:00-12:00
Monday, 9:30	Wednesday 10:00-12:00
Monday, 10:30	Tuesday 1:00-3:00
Monday, 11:30	Monday 3:30-5:30
Monday, 12:30	Tuesday 3:30-5:30
Monday, 1:30	Friday 10:00-12:00
Monday, 2:30	Thursday 3:30-5:30
Monday, 3:30	Saturday 10:00-12:00
Tuesday, 8:05 or 8:30	Monday 10:00-12:00
Tuesday, 9:30	Thursday 1:00-3:00
Tuesday, 10:30	Saturday 7:30-9:30
Tuesday, 11:05 or 11:30	Friday 7:30-9:30
Tuesday, 12:30	Friday 3:30-5:30
Tuesday, 1:30 or 2:05	Tuesday 10:00-12:00

According to the Manual of Information (p.33), all requests to change the final schedule because of conflicts or having three or more examinations scheduled on one day "are to be made in the Registrar's Office at least one week before the beginning of the final examination week" (Friday, May 1).

\$ financial aid \$

Business and Professional Women's (BPW) Foundation Loan Fund. Amount of loan is up to \$5,000 per academic year. Designed to assist women in their final two years of accredited engineering program, both undergraduate and graduate students are eligible. Must carry at least six semester hours, be a U.S. citizen, demonstrate financial need, and have academic and/or work experience records showing career motivation and the technical ability to complete course of study. Applications available in the Student Financial Aid Office. Application deadline: May 1st.

Summer 1987 Student Financial Aid applications for need-based financial aid (loans and/or college work study) will be available in the Student Financial Aid Office, 106 Parker Hall, as of April 1, 1987. In order for a student to be considered for need-based financial assistance for the summer term, the student's 1986-87 ACT Family Financial Statement must be on file in the Student Financial Aid Office by May 1, 1987. The Student Financial Aid Office encourages students to apply for need-based assistance before applying for a Guaranteed Student Loan.

Missouri Miner

The Missouri Miner is the official publication of the students of the University of Missouri-Rolla. It is published each Tuesday at Rolla, Missouri and features activities of the students of UMR.

Submissions for publication must be in our drop box (first floor of the Rolla Building) by 4:30 p.m. on the Thursday before publication or may be brought to the staff meetings at 5:30 p.m. on the same Thursday.

Advertising information may be had by contacting the Advertising Director at 341-4235.

Letters

Dear Editor,

Marcie Waggoner, a staff writer, expressed impatience with all the hullabaloo over traditional values. Perhaps I can clarify just what the pro-family movement stands for. There is great variety within these circles, but the bedrock of our belief promotes commitment and fidelity within marriage. Perhaps many would think this goes without saying, but when almost one in every two marriages ends in divorce, and popular women's magazines suggest how couples can engage in harmless affairs, I find it a health antidote to once again push these values to the forefront of our attention.

Another essential ingredient is that fathers must assume the primary responsibility for the emotional and physical health of their families and for training their children. Being the breadwinner is not enough. If you grew up, as I did, in the 60s, you probably heard a lot about the missing father and were probably affected by one. Researchers claim over 80 percent of young adults were to one degree or another estranged from their families. What needless pain! One important remedy is that both husbands and wives must subordinate their careers to their marriage and family. If a good promotion is offered that will allow for that dream house but keep family members apart for long times, pass it up. Material well being is no measure of success.

The hippie generation and many children today are not raised in pro-family homes as you might think. Many parents have little basis on which to pass on values of self control and judgment. For instance, does the average person today give much attention to the commandment to honor one's parents? We all hear about the general breakdown in respect for authority. The pro-family movement urges that parents, especially fathers, should assume responsibility to promote love, respect, and obedience within their families.

Dear Editor,

What's the deal? Are you trying to compete with the pornographic magazines or what? It would probably be an adequate statement to say that I am thoroughly disappointed and disgusted in calling the "Minor" my school paper.

The photographs presented in the "Minor" over the last few weeks are totally uncalled for PERIOD! I would like to suggest the following method for screening photos being considered for use in the "Minor."

Dear Editor,

There is no doubt that apartheid is wrong. However there are some questions that need to be answered logically and not hastily.

1. Should the United States exert pressure on South Africa to change? While South Africa's internal affairs are ultimately their own business, we do have the responsibility to put some pressure on them in the same way one might try to keep a friend from driving drunk.

2. Should that pressure be financial? That is certainly an option. But should we give into the craze of total divest-

This movement doesn't call for anything new that most textbooks on family relationships wouldn't advocate. Yet, many such ideals go unpracticed. Researchers from the University of Nebraska found that the typical married couple spend only 17 minutes a week in face to face conversation. Is it any wonder that romance doesn't flourish? Instead many people joke about marriage rather than hold it in esteem and many children reveal little to their parents. The pro-family movement abounds in books on how to improve and sustain family communication and strongly resists the common notion that parents need only spend quality time with their children. Children need both quality and quantity of time. The *Wall Street Journal* reported recently about the growing problem of absenteeism due to psychological stress and low self esteem. Do you think such suffering would persist if family members knew how to express appreciation and avoided derisive comments? Did you grow up in an atmosphere of praise?

Perhaps a traditional home is not a panacea, but I believe parents can reverse many ugly social trends by following the suggestions of the pro-family movement. Of course, there is no anti-family movement, but there are many factors threatening personal well being. The statistics are gruesome. One in 10 people have a chemical addiction. Another one in 10 is mentally ill. Fifty percent of husbands and 30 percent of wives commit adultery. Thirty percent of children under seven will grow up through two divorces. Illegitimate births abound and now AIDS is called a worldwide plague. Is the Bible really just an old dusty relic of ancient literature or is its simple adage, "Eschew evil and do good," worth thinking about?

Thank you,
Bill Gruhn

1. Get a copy of a Sears or even J.C. Penneys clothing catalog.
2. Open to the section labeled "undergarments."
3. Compare the questionable photo with those in that section.
4. If questionable photo resembles these or even goes beyond, place photo in the round (or rectangular) filing cabinet usually located on the floor near or under a desk.

Charles Patterson
P.S. My compliments to last year's editors for avoiding this kind of trash.

ment? Consider what would happen if we did. The entire economy of South Africa would probably suffer irreparable harm. That would not benefit anyone, white or black. The African National Congress would then take over, giving another country to the Soviet bloc.

Apartheid needs to be abolished. However we cannot expect South Africa to change overnight when we have been working at ending discrimination for over 200 years and still don't have it right.

Respectfully submitted,
Fred Worth

Apathy is present at UMR

By Bob Han:en
Staff Writer

It has recently been observed that students and faculty alike are displaying many symptoms of chronic apathy. This was most recently observe in the number of survey responses concerning the proposed student lounge (and yes I wrote those articles too!) Additional displays of apathy can be found in attendance of UMR sporting events, attention and opinion to world issues, and to issues that directly affect the quality of life at UMR.

Apathy, according to Webster, is "a lack of interest and or emotion: indifference." With that definition in mind, what might be the causes of this lack of interest and or emotion? Several different explanations are available.

Some people may feel that there is nothing they can do to change a given situation. Be it the way student activities fees are spent, or the making of a new student lounge, they feel that there is just nothing they can do.

Another idea is the feeling of oppression. Where UMR does not intentionally make attempts to oppress the students, some may feel overwhelmed by the "size" and "power" of the almighty "system." In the end they find that the "system" always wins, "why bother." This leads right into the chronic apathy.

Still others maintain a more self-centered attitude. "If it won't benefit me, then I won't put anything in it." Now before you go and get all bent-out-of-shape let me explain the statement. Competition here at UMR is very fierce. Students are always fighting to

be the best at what they do, and competition is healthy, but not when taken to an extreme.

So with problem and cause in view, what would be a feasible solution? First of all, realize that the students and faculty can make change. For example, the proposal for changing the hours on the Multi-purpose building has many signatures on the petitions. Secondly, the system has a reason for nearly every policy. By determining the reason for the policy, suggestions of a change and reasons for change, the policy can often be changed. Thirdly, what may not be good for one directly, may indirectly benefit them by improving the general good for all.

In closing, let me leave you one last thought, "the next time you get a chance, make the effort to care. You'll be surprised how good it feels!"

Alice considered hazing

By Liz Huggins
Asst. News editor

It has recently come to my attention that this year was the last for Alice during the St. Pat's celebration. This is due to the new anti-hazing bill which was passed in Jefferson City, and for which several UMR students most likely lobbied.

The reason behind stopping Alice is simple: only a few select people are chosen to meet the green goo. This is now considered hazing. St. Pat's 1987 was my fourth St. Pat's, and for all these years, I was under the impression that each organization nominated the one who had done the most during the year to promote the goals of that organ-

ization. I assumed this was an honor, to be recognized campus-wide as a dedicated, responsible, hard working individual. Obviously, I was mistaken.

I've always regarded hazing as a prelude to initiation. However, the students selected go thru a knighting ceremony on Friday night, before they go into Alice on Saturday. They are also given a choice as to whether or not

to go in. For years, women have been selected as student knights. However, it's only been in the last two years that they have chosen to go in. Since hazing is usually unavoidable, Alice can't be considered as such, since obviously people do have a choice.

However, if being honored in this way is considered hazing, what about the following:

Only varsity athletes can belong to the M-Club

Only women can belong to sororities

The Coterie Club is made up only of student spouses

These are but a few of the organizations to which only a few can belong. Is this also hazing?

If this University is going to stop Alice, an institution on campus for years, what will it do about the organizations that are obviously prejudiced as to who does and doesn't belong?

Turkey Season

Increased speed limit may have ominous consequences

Marcia Waggoner
Staff Writer

As most of us probably know, the new highway bill including the provision to increase the speed limit of rural highways was passed by Congress a few weeks ago. As of now most state governments are actively passing their own bill to take advantage of this provision.

I saw an editorial cartoon about this. It had a picture of the Grim Reaper cruising down and interstate highway. The caption said, "On the road again...just can't wait to be on the road again..." In the background was a sign with the new speed limit, 65 mph.

That cartoon really caught my eye. It was an

ominous depiction of one possible consequence of the higher speed limit. Highway safety is one thing that the 55 mph speed limit has been credited with. Innovations like safety belts and air bags, as well as better highway design and engineering, are probably also factors.

However, if you're really concerned about highway safety, I suggest that you take a look in the mirror. There you will see (provided you've washed it recently) one of the main causes of either danger or safety on the highways. I made a short trip over spring break. Just about every time I was in the left lane trying to pass somebody, there would be somebody else in front of them who would pull into the left lane directly in front of me.

No turn signals, no looking over the left shoulder (yes, there is a blind spot there), and usually no apparent reason for them to do this. This was especially infuriating when I could see that the car was full of children -- usually unrestrained, very active children climbing all over the ceiling and seats and wherever else. You wonder, do these people care?

They probably do. But as my sister, a mother of two put it, "Have you ever tried to keep a two-year-old in a seat-belt?"

My point here is that highway safety, especially at higher speeds, depends primarily on yourself. Check your oil before you go. Keep your eyes open. And always, always wear your seat belts.

Letters to the Editor

Dear Editor,

The recent letter in the Miner by Mr. Gregory Hubbard on quality of professors reminded me of an essay I had written some time ago based on my experiences as a student. You may find it worth printing in response to his letter.

A teacher is what you have in high school. A professor is what you may encounter in a university. A professor attempts to show you how to learn. No one can teach you how to learn or force you to. When you have learned to learn, you are ready to graduate.

Unfortunately, most of you will graduate before you do, and you will eventually feel cheated by your lack of an education. The world does not stand still and wait, and you will be quickly left behind if you are not prepared to learn anew each day.

If you think it is possible for a professor to teach you how to learn, try the experiment of teaching a baby how to walk. A baby walks only when it is ready to walk. A professor faces the same problems in trying to teach you to learn. If you are not ready to learn, you will stubbornly refuse, and blame

your lack of learning on the professor.

A professor holds out a ring on the carousel but it is up to you to grab hold and clamber aboard. It is virtually certain that catching the ring will be difficult, frustrating, aggravating, at times seemingly impossible, and your delicate ego will be severely bruised in the process. That is not the fault of the professor, and to rail against the professor because you have not yet quite learned how to learn is ultimately self-defeating. The education system then forces the professor to go back to trying to teach you, spoonful by tiny

spoonful. The world advances faster than you can be spoonfed.

It is the duty of a professor to challenge you at the limits of your ability. If you are not being pushed to your limits, you either are a genius and should move on to a point where you are being challenged, or your professor is sadly negligent in his duty. A teacher will feed you pap and, if the teacher is worth his salt, you will have no difficulty digesting it. A professor, however, will present you with ideas and visions. You may never properly digest them, but they haunt you. Problems

posed by a professor work you into mental exhaustion and then wake you up in the night because your mind won't let go of them. When you seek out such problems for yourself, the professor's job is done. For then you have learned to learn and the world forever after will be an exciting place of unlimited discovery for you. The professor, though, must face the next class and try to show them how to walk that a few may someday run.

Charles E. Corry
Associate professor of geophysics

The Goddess and Gods of Greek Week 1987

Hermes

The cleverest of the Olympian gods is Rodney Joel, Hermes '87. Rodney is the president of the IFC, and has been president and vice president of Acacia Fraternity. Rodney has also been involved with ASCE, Greek Council, and Big Brother-Big Sisters. Hermes was known to rule wealth and good fortune, was the patron of commerce and thievery, promoted fertility, and guided men on journeys. He was herald and messenger of the gods, a conductor of souls to the netherworld, and a god of sleep. Hermes was the son of Zeus and was depicted with a helmet, winged sandals, and the caduceus. Being the clever god he is, Rodney speculates... "Party? Greek Week? Yea, yea! That's the ticket!"

Zeus

All the heavens and earth are under the reign of Zeus '87, Chris Keene. Chris is currently the vice president of the IFC, and has served as president, pledge marshal, and rush chairman in Sigma Nu. As supreme deity of the Greeks, he was depicted as a robust, mature man with a flowing beard. At first a storm-god who wielded the thunderbolt, Zeus became the All-Father who populated the heavens and the earth by his promiscuous liaisons; and he finally became the grand dispenser of justice. His palace was on Mount Olympus, together with the homes of the other Olympians. Chris asks, "Do you think my girlfriend will get mad?"

Athena

Move over gods, Athena is here! First time ever Panhellenic goddess, Janet Wacker, will be on the truck and sitting on Mount Olympus at the Greek games. Janet has served as president of Panhellenic, and has been active in Kappa Delta Sorority, SJB, Blue Key, ASME, Pi Tau Sigma, KME, and has been president and secretary of Sisters of the White Star. Athena is said to be the virgin goddess of wisdom, a warrior who sprang fully armed from the head of Zeus after he had swallowed the Titaness Metis. She was also a goddess of the arts and the guardian of Athens. Her chief traits were prudence and valor.

Dionysus

Happy times are here again with Don Norton, Dionysus '87, sitting on Mount Olympus. Don is the current secretary of the IFC, has been the vice president of education for Sigma Tau Gamma, and a member of Alpha Phi Omega. As the fertility god and god of the vine, Dionysus served to liberate the emotions and to inspire men with joy. Like the grape vine, he suffered death but resurrected. His female worshippers were the frenzied Maenads. He is also known as the god of drunkenness. According to Don, "The shoe fits!" We tend to agree!

Hephaestus

Hephaestus '87 is Rob Hipp, from Beta Sigma Psi. Rob is a past vice president of the IFC; has been rush chairman and secretary of BΣΨ; and also a member of Alpha Phi Omega and corresponding secretary for Theta Tau Omega. Hephaestus was the lame, ugly god of the crafts, and a skilled artisan who created many wonderful things. He was injured by his father Zeus for defending Hera in a quarrel. Reflecting, Rob says "Greek Week '87. I'm proud to be the lame, ugly god, but, but why me?"

Hades

The lord of the underworld, Hades '87, is Paul Pryor. Paul is a past president of the IFC. He has also been secretary of Kappa Alpha, as well as president of AFS, vice president of Met. Society, and a member of Blue Key. Since Hades was a brother of Zeus, he was sometimes included among the Olympians. He was a stern, dark, inexorable god, and his kingdom was gray and lifeless. He abducted Persephone, the daughter of Demeter, and made her his queen. As ruler of the region of the dead, Paul asks, "Just who do you think I am, say, maybe... Satan?!!" Now isn't that special?

Briareus

Zeus' person bodyguard, Briareus '87 is Chris Kilpatrick from Sigma Chi. Chris currently holds the office of JBC on the IFC and has been vice president of Sigma Chi. Chris is also a member of Tau Beta Pi, AHSRE, and ASME. Chris wonders, "I know it's an honor, but who the hell is Briareus?" Well, Chris, Briareus was a sea giant who had 100 arms. When Hera, Poseidon and Athena confined Zeus in chains as he slept, Thetis, a sea-goddess, called on Briareus to free Zeus. The gods called him Briareus but men called him Aegaeon.

Gyes

Guarding Mount Olympus is Gyes '87, Fred Kielhorn of Pi Kappa Alpha. Fred is the treasurer of the IFC and has been house manager for Pi Kappa Alpha. Fred's other involvements include Tau Beta Pi, Omega Chi Epsilon, and AICHE. As Gyes, Fred is one of the Hecatonchires, the 100-handed giants who were the children of Uranus and Gaea. He was also known as Gyges. Fred wants to know, "Where's the ambrosia?"

Kottus

Before topping Mount Olympus, the second guard Kottus '87 will confront you. Mark Schlemmer is Kottus '87 and a past treasurer of the IFC. Mark has also been president and secretary of Theta Xi Fraternity. Kottus was another one of the Hecatonchires, and he, Gyes, and Briareus were all brothers. Being a 100-handed giant, Mark comments, "It's funny, I hate the itching, but I don't mind the swelling."

1987 Greek Week Queen Candidates

Susan Turner

Susan Turner represents Sigma Phi Epsilon as Greek Week '87 queen candidate. Susan is a member of Zeta Tau Alpha, Panhellenic Council, Intercollegiate Knights, Sigma Phi Epsilon's Goldenhearts, SUB, American Society of Engineering Management, and UMR women's softball. Her interests include camping, canoeing, skiing, volleyball, and softball. Susan is a sophomore in the mechanical engineering department, and her parents are Mr. and Mrs. Charles Turner of Springfield.

Judith Louise Anderson

Judith Louise Anderson represents Zeta Tau Alpha as queen candidate for Greek Week '87. Judy is a senior chemical engineering student. Her parents are Dorothy and Richard Anderson of Ballwin. Judy serves UMR by being active in Tau Beta Pi Honor Fraternity, Omega Chi Epsilon Honor Fraternity, American Institute of Chemical Engineers, Little Sisters of Pi Kappa Alpha, and Panhellenic Council.

Joann Connors

Representing Triangle Fraternity as Greek Week queen candidate is Joann Connors. Joann's parents are William and Ellen Connors from St. Charles. Joann is a senior in the electrical engineering department and has been involved in Chi Omega, Panhellenic Council, Blue Key, Greek Council, Pi Kappa Alpha Little Sisters, Tau Beta Pi, Eta Kappa Nu, Phi Kappa Phi, Phi Eta Sigma, and SUB.

LuAnn Marie Bleckman

LuAnn Marie Bleckman represents Lambda Chi Alpha as Greek Week candidate. LuAnn has been a member of many organizations including Stu-Co, ASEM, SWE, Phi Theta Kappa, DPMA, Tau Beta Pi, and Chi Omega. LuAnn is a senior engineering management student. Her parents are Norman and Mary Bleckman from Washington.

Angie Wallace

Angie Wallace represents Sigma Tau Gamma as Greek Week '87 queen candidate. Angie is a senior in the computer science department and is a member of Sigma Tau Gamma's little sisters, Zeta Tau Alpha, KME, UPE, IEEE, Alpha Phi Omega, ACM, and ASUM. Angie's parents are Mr. and Mrs. Noval Wallace from Florissant.

Cathy Georgevitch

Representing Phi Kappa Theta as Greek Week candidate is Cathy Georgevitch. Cathy is a sophomore business economics major. She is interested in varsity soccer and is a member of M-Club and Order of the Sun. Cathy's parents are Joseph and Clarissa Georgevitch. They reside in St. Louis.

Wendy Francis

Wendy Francis represents Alpha Epsilon Pi as Greek Week '87 queen candidate. Wendy's parents are Ben and JoAnne Francis, of Pilot Knob. She has been involved with Zeta Tau Alpha, Alpha Epsilon Pi Little Sisters, and the SUB concerts committee. Wendy is a sophomore in the mechanical engineering department.

Liza Japlit

Kappa Alpha presents Liza Japlit as their Greek Week '87 queen candidate. Liza is a sophomore in the electrical engineering department. Her parents are Attorney and Mrs. Ernesto M. Japlit. Liza has been involved with IEEE, SUB, Panhellenic committees, Phi Eta Sigma, Chi Omega, and Daughters of Lee.

Tammy Neudecker

Representing Sigma Nu Fraternity as Greek Week '87 queen candidate is Tammy Neudecker. Tammy is a sophomore in engineering management, and has been involved with the Little Sisters of the White Star, Chi Omega, and intramurals. Her parents are Dave and Mary Eckhouse, from Alton.

Leslie Vigna

Tau Kappa Epsilon presents Leslie Vigna as their Greek Week queen candidate. Leslie is a Phi Eta Sigma pledge, Zeta Tau Alpha pledge, and a member of AIChE, and Tau Kappa Epsilon's little sisters. Her parents are William and Helen Vigna, from Festus. Leslie is a freshman in the chemical engineering department.

GREEK WEEK

Kim Ie

Sigma Pi presents as their queen candidate, Kim Ie. Kim has been involved with the American Society of Civil Engineers, Chi Epsilon, Tau Beta Pi, and Daughters of the Emerald. Kim is a senior in the civil engineering department, and her parents are Mary and Dr. Fing.

Jean Laverty

Representing Kappa Delta is Jean Laverty. Jean is a junior in metallurgical engineering. Jean's parents are Richard and Joyce Laverty, of St. Louis. Jean has been involved in Kappa Delta, Panhellenic Council, Kappa Alpha Little Sisters, Met Society, and AFS.

Sheri Lynn Mantych

Pi Kappa Alpha presents Sheri Lynn Mantych as their Greek Week '87 queen candidate. Her parents are Daniel and Diane Mantych from St. Louis. Sheri is a senior in mechanical engineering and is a member of Zeta Tau Alpha, ASME, ASHRAE, Tau Beta Pi, and Pi Tau Sigma.

Jane Stoll

Delta Tau Delta presents as their queen candidate Miss Jane Stoll. Jane is a sophomore in the engineering management department and is a member of the women's tennis team, and the Society of Women Engineers. Jane's parents are Don and Emma Stoll from Rolla.

Melany Ellicker

Representing Pi Kappa Phi as Greek Week '87 queen candidate is Melany Ellicker. Melany is a junior in the mechanical engineering department. She has been involved with Tau Beta Sigma, orchestra, band, and is a graphics lab teaching assistant. Melany is the daughter of Richard and Margaret Ellicker.

Susan Housh

Susan Housh represents Chi Omega as their Greek Week '87 queen candidate. A sophomore in metallurgical engineering, Susan is a member of Chi Omega, Panhellenic Council, Alpha Phi Omega, Stardusters, SUB, SWE, and is a varsity basketball player. Susan is from Carthage.

Lori Bee

Lori Bee represents Beta Sigma Psi for Greek Week '87 queen candidate. Lori is a freshman in the life sciences department. Lori is social chairman for the Sister of the Gold Star, and is a member of the Chancellor's Leadership Class. Lori's parents are Dolores and Richard Bee. They live in Troy.

Nancy Gamel

Delta Sigma Phi presents Nancy Gamel as their Greek Week candidate. Nancy is the daughter of Fay and David Gamel of Festus. Nancy enjoys weight lifting, aerobics, drinking, and partying with Delta Sig. Nancy is a freshman in engineering management.

Vicki Betlach

Theta Xi presents as their queen candidate Miss Vicki Betlach. Vicki is a freshman in the chemical engineering department. Her parents are Edward and Patricia Betlach of Overland. Vicki is a member of Zeta Tau Alpha, Theta Xi Little Sisters, and the UMR orchestra.

Mary Pudlowski

Mary Pudlowski represents Sigma Chi as their Greek Week '87 queen candidate. Her parents are John and Mary Pudlowski from St. Louis. Mary is a UMR women's basketball player, has been involved in intramural softball and football, and is a Little Sigma.

Kimberly Kuhlmann

Kimberly Kuhlmann represents Kappa Sigma in their bid for Greek Week '87 queen. A sophomore in mechanical engineering, Kimberly has also been involved in Kappa Mu Epsilon and Stardusters. Kimberly's parents are Patricia and William Kuhlmann.

Trikers raise money for charity

By Joann Girard
Staff Writer

On April 15-16, members of Sigma Nu and Chi Omega participated in a "Tricycle Marathon" to benefit the B.W. Robinson State School. Throughout the weeks preceding, people were asked to sponsor the "trikers" as they rode in 30-minute time slots. Over 200 dollars was raised through the sponsors, and through t-shirt sales within

the two houses. Riders ask that sponsors please give their specified donations as soon as possible, so that the money may be given to the state school.

The Tricycle Marathon is only one of philanthropic activities sponsored by Sigma Nu and Chi Omega. Chi Omega holds annual parties for the state school at Halloween, Christmas and Easter. The group also writes to

residents of the Manor Care Center on various holidays, while individual members are active in volunteer work throughout the community.

Sigma Nu has, in the past, raised money to sponsor a family from L.O.V.E. and help with the Happy House Day Care Center. As a group, they have also helped with the Halloween Scouting Carnival and held holiday parties for the state school.

Tammy Neudecker and Jim Rowan peddle for charity in the Tricycle Marathon as they are cheered on by an enthusiastic spectator. (Photo by Joe Ernst.)

Outbreak of ivy causes rash of problems

Submitted by Health Services

"Leaflets three; let it be!" That may just be poison ivy or poison oak you're about to walk through, or pull off of a tree that you want to cut for firewood, or for a shillelagh!

Poison ivy, that red itchy rash, occurs when one comes in contact with the oily substance called urushiol in the stems, sap, and leaves of the poison ivy, poison oak, and poison sumac plants. This oil is able to stick even to the fur of animals, to clothing, and to tools. If not washed, the items can continue to be a source of new cases of poison ivy months later. The rash appears quickly when the skin is not as

thick—such as on the face, eyelids, and abdomen, and more slowly on the thick skin areas of the soles of the feet or palms of the hands.

Though most cases occur during the summer months, developing poison ivy is not limited to warm weather. People have broken out during the winter, after handling clothing or tools still holding the oil. Contrary to popular belief, the rash is not spread by scratching nor can one give it to another person, but there is danger of developing a secondary infection.

What's the best thing to do when you realize you have come in contact with one of these plants? The National Institute of Health suggests thorough

rinsing of the oil off the skin as soon as possible, in running water. Once the rash appears, you may use cool compresses, calamine lotion, or types of cortisone creams. Any rash over 20 percent of the body needs to be seen by a doctor.

Campers have found that spraying their legs, ankles, arms, and hands with an antiperspirant has given some protection from poison ivy. But the good news is that the U.S. Forest Service has tested a new spray for two years with promising results. Let's hope this spray, Ivy Block, will be on the market soon. In the meantime, remember "Leaflets three; let it be!"

KMNR Groundwaves

Keep looking for the blue bird and listening for his song

Submitted by KMNR

As April showers make way for May flowers and the Easter bunny has packed up his colored eggs and hopped down the bunny trail, school and approaching finals become a frightening reality for us at the University of Misery-Rolla. Don't lose all hope yet, there still remains one escape from this black hole of drudgery... tune in to KMNR 89.7 on your FM dial and experience a refreshing new change of pace from ordinary blah commercial radio. Our deejays take pride in the broad musical spectrum of KMNR which includes a variety of jazz, blooze, folk, bluegrass, country, motown, astral, punk, new wave, and of course, good ole rock-n-roll.

Upcoming events to list on your schedule... on Monday April 27 there will be a three-hour artist feature on

the blooze artist extraordinaire—B.B. King. This special program beings at 6 p.m. brought to you by Monster #1 himself, Jim Collum. You should not miss this fantastic blooze man, he will set your feet in rhythm.

Or maybe your life is missing some bizarre humor, no problem in that category... simply tune in at 3 p.m. or 12 midnight to hear Ruby II, the adventures of an intergalactic gumshoe (how's that for bizarre?)

Another event to watch for will be taking place in May round dead (?) week. KMNR will let you know more about this extravaganza once plans are complete (for now it's a secret).

I'd like to congratulate the newly elected members of KMNR's executive board:

Station Manager: Kathy Dolson
Program Director: Jennifer Sommer

Chief Engineer: Mike Harvey
Business Manager: Chris Icide
Personnel Manager: Jim Collum
Public Relations: Greg Boice
News Director: Gary O'Day
I would also like to commend the outgoing exec board. They have accomplished many feats during this year and their spirit will remain with KMNR forever. Bill Carty (station manager), Lisa Hoven (P.D.), Steven Hendre (C.E.), Eric Steuterman (B.M.), Kath Dolson (personnel), Jim Collum (P.R.) and Mike Hartin (news director).

Remember to keep the music in your heart, a smile in your eyes and the future can't look anything but bright. Listen to the music. So long for now. Snapman

P.S. Don't forget to stop by and pick up a new bumper sticker.

Greek Week Intinerary

Wednesday, April 22 (wear old Greek Week shirts on campus)

- 2:30 BBQ at Lion's Club Park (bring GW mug).
- 3:00 IFC vs St. Pat's Board softball game at Lion's Club
- 5:30 Queen's Tea at Delta Sigma Phi
- 7:00 IFC Benefit Movie *Back to School* at the Uptown Theater.
- 9:30 Second showing of *Back to School*
- 9:00 After movie party at Beta Sigma Psi. (Free admission with movie ticket stub. Bring GW mug.)

Thursday, April 23 (Wear Greek Week hats and visors on campus)

- 1:00 Idi-Odysseys at the Hockey Puck.
- 6:30 IFC-Panhellenic Banquet at Knights of Columbus Hall.
- 9:00 Beer Bust at Lion's Club Park. (Bring GW mug.)

Friday, April 24

- 6:30 Greek Week Carnival at Lion's Club Park.
- 10:00 Greek Dance at the Armory. (Bring GW mug.)

Saturday, April 25

- 11:30 Greek Week Games at the Elysian Fields. (Bring GW mug.)

IFC announces finalists for Man of the Year

Submitted by IFC

Every year the IFC honors an outstanding fraternity member by awarding him with the title "IFC Man of the Year." The candidates are chosen on the basis of their leadership on campus, extracurricular activities, and other distinguished honors. The candidates are then interviewed and voted upon by representatives from each fraternity. The winner is announced at the IFC banquet where he is presented with an award.

This year's finalists are: Greg Bram from Sigma Chi; Michael S. Silliman from Sigma Nu; Timothy Allen from Pi Kappa Alpha; Robert H. Francis from Beta Sigma Psi; Joe A. Nastasi from Kappa Alpha; Michael C. Long from Sigma Nu; Brad Thompson from Tau Kappa Epsilon; and Kevin Dalton from Sigma Tau Gamma. The IFC recognizes these men for their hard work and their dedication to the UMR community.

IFC Man of the Year Finalists (left to right) Mike Long, Joe Nastasi, Mike Silliman, Greg Bram, Bob Francis, Tim Allen and Kevin Dalton. (Photo by Ron Stoops)

personal

Mr. Zink
Thanks for turning the heat back on!

Nikki
You did a great job on the chariot. You have such great ideas! Too bad it didn't get to Rolla sooner. It would have been even better!

Dee,
I had a great time on retreat.

B.U.,
B.I.O.Y.A.

Attention UMR Students,
Greek Week is here and Flashman is ready. On Friday night during the Greek charity fundraising bash he will sit in the dunking booth to give Rolla Students a chance to dunk him. This should be around 9:00 p.m. There is also a rumor about his appearance as a chariot driver during the Greek Games Saturday. There may also be selected appearances during the other festivities. Everyone wants a glimpse of Flashman so attend all of the Greek Week events.

Miss Drummer,
What are you doing August 15, 1990? How about a little 'trip' up the West Coast? You better check your calendar first!

Guess who,
You've got good taste, but I give up. Who?

Hot Stuff,
A year and a half? I hate it when that happens. It's been pretty out of hand!

Christal
Leave my nipples alone!

To the Wednesday Night Crew:
Attendance is getting poor. What's wrong with you people? Stop all this studying!

Brewsters Chem E's,
On Friday afternoon, regardless of rain sleet or hail
A drunken pair you will always see, namely Dave and Gail
Susan Mullins our basketball gal
Loves drinking more than any pal
Here's to Clegg
Who loves showing leg
Tommy Tamm
Now there's a ham
Laura Oehlert which finger to choose?
Who cares, just have another shot of booze
Mr. Howard give us a clue
We think Ms. Scarlet is in love with you
Don McGowan a puking guy
Here's to the games you know why
Farhad Adib and Robert Y Barra
A couple of cards you are a.

Glynda,
Biff told me to put in a classified to you, and he even told me what to put in. But... I forgot! I know he said to thank you for Lance, but I forgot what you made for him to say thank you for. Biff, are you going to be mad at me?

Soul Sisters,
Ambassadors of Evil, repent now and become women of the cloth. The nunnery of St. Elizabeth the Kink Hearted awaits you. In the name of God, Chancellor Jischke, and Rolla.

Damage Inc.
Worshippers of Rambo; children of the Godfather, know you that the offer of knightly combat cannot be bestowed to social inferiors not those lacking nominal intellect, therefore I, Launcelot Du Lake, Knight of the round Table demand that you cease your unholy ways, lest I am forced to insure your demise for the sake of your soul.

Druids of UMR,
Heathen Beware, Sir launcelot Du Lake, Knight of the Round Table, has been recalled once again to the mortal plane to fight for the cause of good. Druids, I offer you the opportunity to die honorable in knightly combat. You have offended, the God of our fathers through your immoral lust after worldly powers. In the name of God, Chancellor Jischke, and Rolla.

Tigger,
Happy 3 month anniversary sweetie! You are very special to me! Vielen dank fur alles, ick liebe dick mehr! Keep on swimming! By the way, what is your favorite fruit? PTPP lives!

Mark(aka "Woogums")
I'm gonna fire my dog. Beware the full moon.

P.S. I miss you
To the Men of Kappa Alpha Order,
Thank you for making my initiation so special.

Hey KA! Let's get psyched for Greek Week!
Tiger,
Happy Anniversary! it's been a great 1 1/2 years! (How time flies when you're having fun!!)

P.S. Love those legs! Not to mention the running shoes!

KDW-
Get a life! and get a new apt.

Dr. Dad,
Well, this is it. After 5 years, there are only a few short weeks till it's all over. I just thought I'd let you know how much you mean to me. But you already know that. I'll always be here for you. I love you.

To the Women of UMR,
So you had as much fun yelling "Skin to Win" at Sigma Chi as we did at St. Pat's. Maybe you should think twice before you call us a bunch of hard-up men with only one thing on our minds, because it's on your minds too!

Andrea,
Are EE's really great? I'll give you the benefit of the doubt for now.

1c
How dare you stop by when we're not home. What if we weren't decent? Happy Birthday! Hope you have a good fortune in your cookie!

Laura,
Your shaking in the Caribbean dance was just like you: wonderful.

vicki,
Thanks for being a great Queen. We wish you the best of luck this week. We know you will do great.

WANTED...

Volunteers with diabetes to participate in a national diabetes study.

If you

- Are between the ages of 13 and 40
- Have had diabetes more than one year, but less than 15 years
- Have no major diabetic complications
- Are taking insulin
- Have no previous insulin pump use

This is an opportunity to be part of a very important study that will affect the future of diabetes care.

Quality diabetes care and supplies will be furnished free. If interested, call between 8 a.m. and 5 p.m. weekdays at Cosmopolitan International Diabetes Center, UMC Health Sciences Center (314) 882-2635.

Todd D.,
Sorry if the bare essentials embarrassed you. If so, I apologize. I just thought everyone deserved to see the real you.

UMR Film Series presents:

My Beautiful Laundrette

Directed by Stephen Frears with Gordon Warnecke and Saeed Jaffrey. R-1986. *My Beautiful Laundrette* is a sharp, sophisticated, funny, sexy, compassionate picture about some of the most real, most arresting characters you've ever seen. Omar is a Pakistani teenager who seems headed nowhere, but Omar's uncle Nasser is a prosperous hustler who takes Omar on and pretty soon the nephew is out-hustling the uncle.

- CO-OP STUDENTS -

WORK REGISTRATION FOR THE SUMMER AND FALL SEMESTERS, 1987, WILL BEGIN MONDAY, APRIL 20, 1987, AND LAST UNTIL THE END OF THE SEMESTER. THIS IS A MUST FOR ALL CO-OP STUDENTS WORKING DURING THE SUMMER AND/OR FALL SEMESTERS. THIS REGISTRATION WILL BE HELD IN THE CO-OP OFFICE, 101 BUEHLER BLDG.

PLEASE REMEMBER THAT IT IS IMPERATIVE THAT YOU STOP BY THE CO-OP OFFICE FOR THE PURPOSE OF COMPLETING YOUR CO-OP WORK REGISTRATION.

OFFICE HOURS:

The Office of Career Development is open 12 months a year, Monday through Friday, from 7:30 a.m. to 4:30 p.m. Call 341-4343 for information.

CAREER COUNSELING

A counselor will discuss individual concerns and answer specific career-related questions. Students can learn how to:

- Write an effective resume
- Interview successfully
- Search for employment

CAREER INFORMATION

The Career Development Office has the following resources:
Material to research careers to explore occupations, employment trends and salaries

Employer notebooks, pamphlets, and magazines

Audio-cassett tapes on over 100 different employers (located in UMR Library)

JOB LISTINGS

The Office of Career Development receives many job listings throughout the year.

Summer job listings
Career positions for college graduates
Teaching and educational administrative positions

INEXPERIENCED JOB LISTING: available twice monthly. For a \$5.00 fee, we will send you this listing for a 3 mo. period. (Also includes the Weekly Detail List when available.) Listing of companies includes job description and contact for employment. For further information, contact Jane Allen, G-3 Buehler Bldg.

EXPERIENCED JOB LISTING: available twice monthly. For a \$15.00 fee, we will send you this listing twice a month for a 6 mo. period. (This fee also includes resume referral.) For further information, please contact Mr. Paul Ponder or Mrs. Joan Boeding, 201 Buehler Bldg.

Lady Miners recruit two top prospects

Source: OPI

Two highly recruited post players have signed national letters of intent to play basketball for the UMR Lady Miners.

UMR head coach Mary Ortelee announced the signing of Casey Engstrom, a 6-2 center from Paragould, Ark., and Cynthia Farrington, a 6-0 center-forward from Kansas City.

Engstrom, who averaged 15.1 points and 10.9 rebounds per game for Ridgecrest High School, comes to the Lady Miners with impressive credentials. She led her team to a second-place finish in the Arkansas 2-A State Tournament, earning all-conference, all-region and

all-state honors along the way.

"Casey gives us the big player we desperately needed to add to the program," Ortelee said. "She is 6-2, has very long arms and is a rapidly improving player who is anxious to learn."

Engstrom was recruited by a variety of schools, turning down full scholarship offers by three universities in Arkansas.

The other new Lady Miner also led her team to a second-place finish in a state championship game, as Farrington's St. Teresa's Academy team lost to Kickapoo in the Missouri 4-A finals.

She averaged 15.4 points and 10.2

rebounds per game, gaining all-district and AAU All-America honors along the way. Farrington ended her career as St. Teresa's all-time leading scorer.

"She will have to make the transition from center to forward, but I see no reason why she cannot do that," Ortelee said. "She is an excellent outside shooter, keeps the ball alive well on the boards and has all the tools to be a great college basketball player."

Farrington was recruited by Central Missouri and Southwest Missouri State.

Ortelee said she plans to announce additional recruits within the next week.

Intramural Update - Nominees for next year's officers named

By Jim Lawson
Staff Writer

Softball last week was rained out, and I don't have last week's article, but I can say that softball will probably conclude this week. Since this is probably my last article, and I don't know who the next writer will be, you may or may not have softball results next week. How's that for information.

Track will be held on April 21-23. Also, there will be an Intramural Manager's meeting on Wednesday at 5:30. Officer elections will be held. The following have been nominated:

President - Randy Behm
Kevin Fahrenkrog
Vice President - Greg Johnson
Jim Lawson
Treasurer - Jim Lawson
Dan Hauschel
Secretary - Lenny Meers
Corresponding Secretary - John Hentges
Athlete/Idiot-of-the-Week honors went to Randy Behm of Phi Kappa Theta. Randy is .778 at the plate and is errorless at first base. Besides a busy schedule, Randy makes all practices, when given directions.
Team-of-the-week went to Sigma Chi for their 3-0 record in softball. They look like the team to beat this year.

Remember the mandatory outing at Lion's Club park on April 29th. It's been fun writing these articles, but I can't have all the fun. Look for a new writer next week!

Sports Commentary

Cardinals get off to fast start despite injuries

By Mark Buckner
Staff Writer

The first two weeks of the season has gone good for the baseball Cardinals, but they are paying for it.

Catcher Tony Pena was injured in the third game of the season against his former team, Pittsburgh. Pena, whose thumb was broken when hit by a pitch, still has another good five weeks to spend on the disabled list before he can come back.

And now, not only is their star catcher out but their star pitcher will be out longer than Pena. John Tudor will be out of action for three months because of a broken bone in his knee. That means he won't be back until late July. The injury occurred Sunday when Mets catcher Barry Lyons was chasing a foul ball and went full-steam-ahead

into the Cards' dugout and landed on Tudor's knee.

But the Cards have been winning without Pena and, even though Tudor won two of his first three starts, he hasn't been pitching like John Tudor can pitch.

The Cards are coming off a very important three-game sweep over the Mets. As you all know, the Mets swept a four-game series from the Cardinals, and that sweep was what got the Mets started on their superior level of play last year, and the Cards fell to pieces after that series. The Cards needed to win at least two games in this year's first series meeting against New York to gain some self confidence in being able to let themselves know that they can beat the Mets on any given night.

The Cards' knight in shining armor

so far this year has been Tom Herr, who has 15 RBI's. Herr got nine of them in back-to-back games. The Cards won the first game of the series, 4-3, as Herr drove in three runs and got the game-winning RBI as he got a two-run single with two outs. Then came the wild 12-8, 10 inning win as Herr drove in six runs. And, once again, he got the game-winning RBI - a grand slam off Jesse Orosco. The Cards won Sunday 4-2 as Willie McGee may be starting his comeback. He hit a two-run homer.

One would think that the loss of Pena would hurt the catching unit, but both Steve Lake and rookie Tom Pagnozzi, who tied the game in the tenth inning with his first major-league hit Saturday and then hit his first big-league homer Sunday, have played very well. They must continue to play well while Pena is on the shelf.

Besides the catchers and Herr, other players who've gotten off to very good starts are Vince Coleman (10 steals), Jim Lindeman (3 homers), and maybe the biggest contributor of all with the exception of Herr, Ricky Horton (3 impressive saves).

It seems like over the past five or six years that, in many cases, the team that gets off to the fastest start and is in first place by the end of April will go on to win the division. Oakland (11-0 to start the season) did it in '81, Atlanta (13-0 to start the year) did it in '82, Detroit (35-5 after their first 40) did it in '84, and the Mets, who won 12 straight in April, last year.

right now, the Cardinals are in first place with a record of 7-4. Maybe this will be the year St. Louis will get off to a fast start and win the division.

M-Club Athlete of the Week

The M-Club Athlete of the Week for March 29-April 4 is Kristy Weber of the UMR Lady Miner softball team. Kristy pitched two shutouts during the week. She started the week with a 3-0 victory over Central Missouri State. She followed this performance with a 1-0 win over NEMSU. Not only did she pitch a great game, but she drove in the only run. it was the first time the Lady Miners had ever beaten Northeast in the history of UMR softball. Congratulations Kristy!

Final spring home events

By Tom Duggan
Sports Editor

As the semester winds down and free time gets harder to find, the crowds at Miner sporting events get smaller. So, this week, take some time out to support your fellow students, the athletes of UMR.

The last baseball home game is

tomorrow at 1:00 p.m. The opponent will be Washington University.

The women's tennis team plays Westminster this afternoon at 3:00 p.m. This is the ladies' last match before the MIAA conference tournament. These are the last Miner home events. Any post-season matches will be announced next week.

SPORTS TRIVIA

1. Who is the only basketball player in NCAA Division I history to accumulate 2,500 points, 1,300 rebounds and have a field-goal percentage of better than 60 percent?
2. Name the three coaches in college basketball to have won three or more NCAA titles.
3. Name the NCAA's all-time winningest college coach in one sport?
4. Who is the only baseball player to hit two home runs in the same inning on two occasions?
5. Name the pitcher who holds the record for the most career shutouts?
6. Who was the N.Y. Yankees first black player?
7. Which baseball player set the record for most hits in one season?

1. David Robinson - U.S. Naval Academy
2. John Wodden - UCLA - 10
3. Bobby Knight - Indiana - 3
4. Adolph Rupp - Kentucky - 4
5. National championships in 36 years as head coach.
6. Dave Williams - golf coach, University of Houston.
7. George Sisler, 257 for the St. Louis Browns in 1920

ANSWERS TO SPORTS TRIVIA

"HOW I MADE \$18,000 FOR COLLEGE BY WORKING WEEKENDS."

When my friends and I graduated from high school, we all took part-time jobs to pay for college.

They ended up in car washes and hamburger joints, putting in long hours for little pay.

Not me. My job takes just one weekend a month and two weeks a year. Yet, I'm earning \$18,000 for college.

Because I joined my local Army National Guard.

They're the people who help our state during emergencies like hurricanes and floods. They're also an important part of our country's military defense.

So, since I'm helping them do such an important job, they're helping me make it through school.

As soon as I finished Advanced Training, the Guard gave me a cash bonus of \$2,000. Then, under the New GI Bill, I'm getting another \$5,000 for tuition and books.

Not to mention my monthly Army Guard paychecks. They'll add up to more than \$11,000 over the six years I'm in the Guard.

And if I take out a college loan, the Guard will help me pay it back — up to \$1,500 a year, plus interest.

It all adds up to \$18,000 — or more — for college for just a little of my time. And that's a heck of a better deal than any car wash will give you.

THE GUARD CAN HELP PUT YOU THROUGH COLLEGE, TOO. SEE YOUR LOCAL RECRUITER FOR DETAILS, CALL TOLL-FREE 800-638-7600,* OR MAIL THIS COUPON.

*In Hawaii: 737-5255; Puerto Rico: 721-4550; Guam: 477-9957; Virgin Islands (St. Croix): 773-6438; New Jersey: 800-452-5794. In Alaska, consult your local phone directory.
